## PEB FAMILY

*off to a fun 2015!*

## Having fun at the Blackout Holiday Affair!

The 6th Annual Blackout Holiday Affair, sponsored by PEB, was a great success. Over 200 guests attended the party.

This year we raised \$1,000 for the Nap Ford Community School, a charter school which serves the impoverished Parramore community outside downtown Orlando.

# Welcome to the **PEB team!**

## What sport is more dangerous than football?

You hear a lot about sports injuries, but bicycles aren't often included—even though the injury rate is higher than football's.

This spring, as you and your family hit the pavement and trails, keep safety in mind. One of the easiest ways to protect yourself while riding a bike is to wear a helmet. According to the American Association of Neurological Surgeons, riding a bike without a helmet is more dangerous than any contact sport. In 2009, 86,000 head injuries that resulted in a trip to the hospital were due to bicycle accidents. In comparison, 47,000 were from football injuries. In addition to head injuries, cyclists suffer neck and spinal injury, skin abrasions, and fractured bones.

### *Here's how to protect yourself and your family while riding:*

- Always wear a helmet.
- Ride with traffic as far to the side of the road as you can.
- Ride on bike lanes and trails when possible.
- Use headlamps, reflectors, and reflective tape on clothing and helmets to make yourself visible to drivers.
- Don't use earbuds or earphones while biking.
- Signal when turning and obey the laws of the road.
